

Realising benefits for WATERGUARD; a business-critical Ministry of Defence enterprise programme

the Challenge

- Make the MOD tax efficient and compliant with HMRC regulations, European Law and the contractual obligations of foreign military sales
- Minimise the large financial risk to the Defence enterprise of shortfalls in International Traffic in Arms Regulations (ITAR) and Defence Trade and Cooperation Treaty (DTCT) compliance

the Harmonic Impact

- Policy development and designing changes to existing processes across Team Defence
- Complex programme management and controls, including management of risk, quality, resource and benefits
- Architecting the enterprise solution and establishing requirements for individual work packages
- Management of capability acquisition, from requirements to acceptance

the Outcome

£4.2bn of liabilities to date recognised by MOD, HMRC and wider Government as being mitigated

Several £100m saving in submarine maintenance costs

£50m of Equipment write-off recovered

Mitigation of \$100m ITAR and DTCT fines on the Defence supply chain

UK Defence Information 2016 Excellence Award in partnership with Babcock International and Team Defence
